Dear Parent / Carer,

Re: Remote learning in the event of school closures

As you will be aware schools are closed in a number of countries in Europe. Although in the Government's announcement on Thursday it was made clear that schools in the UK remain open, please be assured that we are monitoring this situation closely and we have a contingency plan in place should the situation change.

If the school is closed or if pupils are asked to work from home, lesson resources will be uploaded to 'Google Classroom' which pupils can access via the Google Classroom website (<http://classroom.google.com>). Google Classroom can be accessed on any device with access to the internet (e.g. computers, laptops, phones and tablets). [Google Classroom can also be accessed via 'RM Unify'.]

To access a specific Google Classroom, if a pupil is not already a member, they will need a specific class code (1 code per classroom). These codes will also be published on our website in due course and communicated to the pupils in lessons this week.

Although a significant number of pupils regularly use Google Classroom, over the next few days, we will be publishing guidance on our website to explain how pupils can access this resource.

If you do not have access to the internet, then please contact the school directly so that appropriate arrangements can be made.

Further advice on the Coronavirus from the NHS can be found here:
